## Secure Fleet drives forward with Brandon Total Care Managed Services.

### Challenge

Every organization needs a manageable and flexible IT environment which operates smoothly. Essentially Secure Fleet was starting from scratch, the company needed to run their operating systems and key business applications in an effective manner.

*“Setting up a company like Secure Fleet requires a number of facilities in regard to technology. We needed email, servers and network facilities at our disposal”, comments Paul Sweeney, Managing Director of Secure Fleet.*

Secure Fleet needed to establish a comprehensive solution for ongoing management of their entire infrastructure. It was paramount for the company that the day to day operations of the business were not interrupted and ran smoothly and efficiently with no down time.

*“We wanted the IT systems to work like turning on the lights. The Total Care Package offered just what we were looking for”, comments Paul Sweeney, Managing Director of Secure Fleet.*

### Solution

Through the implementation of Microsoft technology and Brandon managed services, Secure Fleet can operate smoothly on a day to day basis without worrying about possible interruptions which may occur.

### Results

Secure Fleet employees no longer have to spend time on technology problem solving. Brandon work as a fully furnished outsourced IT department with all IT issues dealt with by the team in Brandon. This gives Secure Fleet the assurance that all day to day technology concerns are taken care of.

## Overview

### Products Used

- Microsoft Server and Desktops.
- Dell Hardware
- Brandon Total Care.

### Client Profile

• Secure Fleet is a vehicle management and maintenance company. Secure Fleet specializes in small and medium sized fleets where the company does not have a dedicated fleet manager, yet requires a professional approach to the overall management of their vehicles.

### Business need

- As a new business, Secure Fleet required a solid stable IT environment.

### Solutions and Benefits

• “You manage your business, we’ll manage the technology behind it”, the Brandon ethos effectively illustrates what Brandon brought to Secure Fleet. Put simply, Secure Fleet required Brandon to manage their day to day technology requirements in order for them to carry out a smooth business operation.

## Quote

“Brandon simply get the job done, they get to the problem before we even know a problem has occurred.”

*Paul Sweeney  
Managing Director
